

# YOU'RE IN CONTROL!

## A SHOWCASE OF MICRO-CONTROLLER PROJECTS

Calling all students, makers,  
engineers & entrepreneurs!

From Micro:bits to LilyPads, Arduinos, Raspberry Pis and beyond! These microcontroller projects bring together computer science, engineering and creativity to build cool projects that are interactive, artistic and scientific. We want to build a community of learners, entrepreneurs, artists and enthusiasts. Connect to other students, educators, enthusiasts, makers and engineers. Prototypes welcome, these can be works in progress. Limited space available to showcase projects.

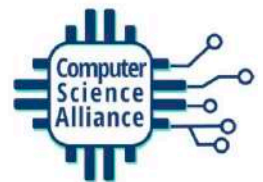

**March 8th, 4-6pm (set up starting at 3pm)**

**Must be registered and will be notified with more details.**

Behind the scenes tours by Meow Wolf staff for those showcasing projects.

Contact Paige Prescott if you have any questions- [paige@computersciencealliance.org](mailto:paige@computersciencealliance.org)

This event is brought to you by Meow Wolf, Computer Science Alliance and Santa Fe Alliance for Science
